Amogh Raghuwanshi

B.Tech Computer Science and Engineering Student | Software Development Internship

Bhopal, Madhya Pradesh, India | +91 6232507602 | amoghraghuwanshi@gmail.com
linkedin.com/in/amogh-raghuwanshi | github.com/AmoghRaghuwanshi

SUMMARY

B.Tech Computer Science and Engineering student focused on software development, with hands-on experience building an AI-enabled agriculture web application in a 5-member team. Comfortable with C++, Git and GitHub. Hackathon runner-up and paper presentation winner, with a growing interest in AI and Data Science.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering 2025 – 2029
Bansal College of Engineering, RGPV | Currently in 3rd Semester | CGPA: 7.0/10

Class XII (PCM), BOSSE, Sikkim | Percentage: 79.6% 2025

Class X, CBSE | Percentage: 69.4% 2022

TECHNICAL SKILLS

Programming: C++

Web Development: HTML, CSS, Responsive Web Design, UI/UX

Tools / Version Control: Git, GitHub

AI / Project Experience: AI integration, Chatbots, API integration, AI-assisted development

Project Technologies: Next.js, React, TypeScript, Google Gemini, Groq, PostgreSQL (Neon), Twilio, React-Leaflet, Zustand, Netlify

Core Strengths: Problem Solving, Team Collaboration, Communication

PROJECTS

AgriConnect – AI-Enabled Agriculture Marketplace | Developer, 5-member team 2026

GitHub: github.com/AmoghRaghuwanshi/agriconnect | Live Demo: agriconnectproo.netlify.app

- Designed responsive UI/UX for farmer and consumer workflows, making product selling, discovery and communication simple on a digital agriculture marketplace.
- Built major portions of the web application with Next.js, React, TypeScript and Zustand, using AI-assisted development and then testing, debugging and refining the output.
- Implemented GIS map-based features with React-Leaflet, along with weather prediction and information features, giving users location-aware agricultural insights.
- Helped integrate an AI chatbot and voice-based interaction using APIs (Google Gemini, Groq, Twilio) and PostgreSQL (Neon), and deployed the application on Netlify.

ACHIEVEMENTS

- **Top 6 among 90+ teams**, National Level Ideathon 2K26
- **Runner-Up**, HackFusion college hackathon
- **1st Place**, College Paper Presentation
- **Shortlisted for Day 2**, BGI Hackathon 2026, advancing to the second stage with AgriConnect

LEADERSHIP / POSITIONS OF RESPONSIBILITY

College Representative / Ambassador | Viksit Bharat Young Leadership Dialogue (VBYLD) 2027

- Represented the college for the VBYLD initiative.
- Guided fellow students on participation and the program.

LANGUAGES

Hindi – Fluent | English – Intermediate (working proficiency)
